New & Updated Courses

- Accident Investigation
- GHS Safety Data Sheets
- GHS Container Labeling
- Bloodborne Pathogens
- Warehouse Safety
- DOT Commercial Vehicle Inspections
- Hazardous Materials Labeling
- DOT SP - 21223

AmeriSafety
Training ✨ Compliance ✨ Safety

DOT SP - 21223

Required for hazmat employees who perform functions under this permit. This course covers shipments from China that are classified within the US DOT as 1.4G UN0431 Articles Pyrotechnics, which CIQ does not recognize as a classification. This ensures shipments of those products as 1.3G to be reclassified at the destination of permit holder.
